

$$RS = 2x + 7$$

$$ST = 28$$

$$RT = 6x + 3$$

Find x and the length of RS & RT

M is between N and O . Find the length of all three segments.

$$NO = 5x + 2$$

If $DT = 60$, find the value of x . Then find DS and ST .

More examples of congruent segments:

Find EF , FG , and EG .
